Question selection	Curated chapter coverage (~3 questions per section)
Model	claude-sonnet-4-6

Composition — Difficulty: 6 straightforward · 4 medium · 1 deep | Types: 5 Short · 4 Very short · 2 MCQ

Q1. straightforward initial-understanding § Introduction [1]

Mention any two ways in which agriculture contributes to India's economy other than providing food.

◆ Agriculture

Q2. medium initial-understanding § TYPES OF FARMING [3]

What is 'slash and burn' agriculture? Describe any two features of this farming practice.

◆ Agriculture

Q3. straightforward initial-understanding § TYPES OF FARMING [1]

Which one of the following best describes plantation farming?

- (A) Small family-owned farms growing several crops for home use
- (B) Large-scale cultivation of a single crop using capital-intensive inputs, with produce going entirely to industry
- (C) Rain-fed farming on hilly slopes using only traditional tools
- (D) Subsistence farming practised on fragmented land holdings

- A Small family-owned farms growing several crops for home use
- B Large-scale cultivation of a single crop using capital-intensive inputs, with produce going entirely to industry
- C Rain-fed farming on hilly slopes using only traditional tools
- D Subsistence farming practised on fragmented land holdings

◆ Agriculture

Q4. medium initial-understanding § TYPES OF FARMING [3]

The same crop can be a commercial crop in one region and a subsistence crop in another. Using any one crop as an example, explain how this is possible.

◆ Agriculture

Q5. straightforward initial-understanding § CROPPING PATTERN [1]

India has three main cropping seasons. Name them and state the approximate sowing and harvesting months for any one of them.

◆ Agriculture

Q6. straightforward initial-understanding § Major Crops [1]

Why are pulses particularly valued in a vegetarian diet, and what special property do most of them add to the soil?

◆ Agriculture

Q7. straightforward initial-understanding § Major Crops [1]

What specific nutrients present in ragi make it an important food crop, especially in dry and hilly regions of India?

◆ Agriculture

Q8. medium initial-understanding § Major Crops [2]

In India, rice is grown both as a subsistence crop and as a commercial crop. What does this mean, and why does the same crop serve different purposes in different regions?

◆ Agriculture

Q9. straightforward initial-understanding § Major Crops [1]

Which of the following is NOT a kharif crop?

- A Cotton
- B Groundnut
- C Mustard
- D Jute

◆ Agriculture

Q10. deep initial-understanding § Major Crops [3]

Compare the climate and soil conditions required for the cultivation of cotton and jute in India. How do their requirements differ from each other?

◆ Agriculture

Q11. medium initial-understanding § Technological and Institutional Reforms [2]

Why does the government announce minimum support prices and procurement prices for important crops?

◆ Agriculture
